

Rachanashakti fabtech
PVT LTD

ABOUT US

Rachanashakti Fabtech Private Limited is ISO certified, One of the known reputed company in india for design, manufacturing, supply & erection/commissioning of process equipment's like pressure vessels, reactor, heat exchanger, storage tanks, pressure receivers, chimney, heavy structural items, skids, base plates and other items for oil/gas, petroleum, chemical, food, sugar, steel, fertilizers and power plant sector.

Rachanashakti Fabtech Private Limited is follow quality management systems for the entire business process right from the beginning to manufacturing fabrication & installation at the site.

Rachanashakti Fabtech Private Limited has worked under inspection of various third party agencies. We are getting orders repetitively from our existing and new clients that shows our quality & reliability of supplied product.

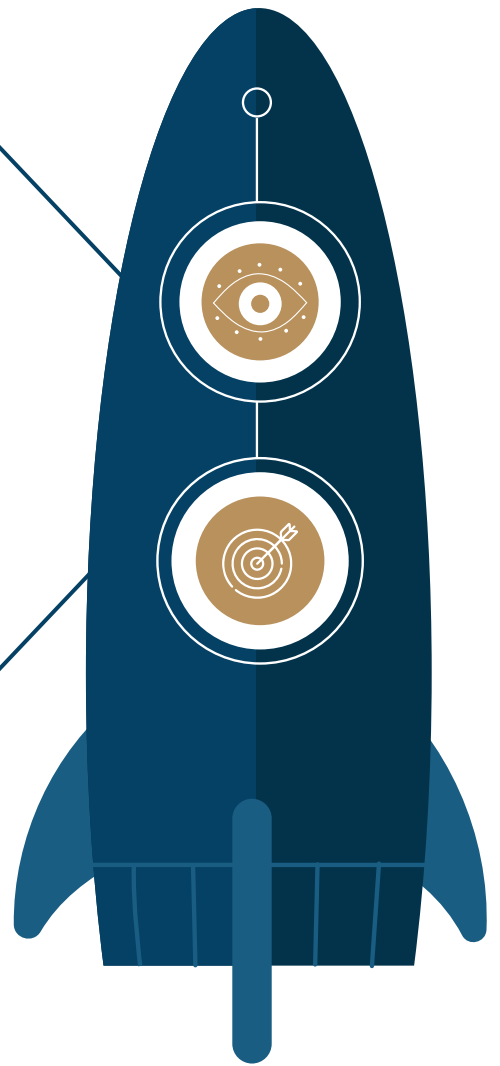

VISION OF COMPANY

The prime vision of Rachnashakti Fabtech is to achieve premier benchmark in customer driven imagination with our core resources of design, R&D, fabrication, manufacturing & Quality assurance.

Rachnashakti Fabtech Private Limited has bright vision towards accepting technological & technical challenges.

MISSION OF COMPANY

- ✓ To achieve Rich trust of our valuable customers.
- ✓ To grab innovation with emphasis on value addition.
- ✓ To be always thirsty about technical changes & challenges.
- ✓ To be prime satisfied supplier of efforts for customers dream project.

OUR PRODUCT RANGE

Liquid Sodium Silicate Plant

Alkyd Resin Plant

Reactor Vessel

Pressure Vessels

Heat Exchangers

Storage Tanks

Screw Conveyor

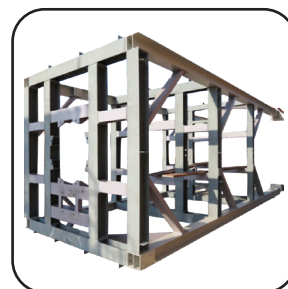

Ribbon Blender

Columns & Towers

Filter Press

Heavy
Fabrication

Custom
Fabrication

QUALITY POLICY

Rachanashakti Fabtech Private Limited is an ISO 9001:2008 certified company which shows continuous growth & core strength of the company with remarkable quality policy.

We are ready with quality approach like dye penetration (DR test), hydro testing, pneumatic testing, Positive material identification (PMI) and Radiography.

DESIGN & PROCESSING

As design is a crucial part and soft part of all project, we cannot compromise with logging design parameters so, we are having backup with highly talented design team working with all complex projects including technical challenges with supporting software like.

- ☐ Autocad-3D
- ☐ Ansys
- ☐ Pv-elite etc.
- ☐ Solidworks
- ☐ EDEM

ENGINEERING

With decades of experience in Fabrication & sharp engineering skills of owners, we constantly endeavor to achieve competitive Quality in engineering.

Rachnashakti Fabtech Private Limited has versatile range of Process equipment of engineering to achieve all heavy & complex projects from imagination to reality.

As Quality comes from scratch, We are having Qualified & experienced Engineers for smooth engineering management & certified labors for achieving 'ZERO TOLERANCE' manufacturing. sound understanding & Professional engineer team helps to grasp customers requirement on the floor as soon as possible.

INFRASTRUCTURE & MACHINERY

Basic requirement for achieving heavy duty project is great infrastructure. Sound space of infrastructure provides excellence across the various spheres of manufacturing.

Versatile & wide infrastructure & Machinery of Rachnashakti fabtech is as below:

MACHINERY	DESCRIPTION
Total Plant Area	18,000 Sq. Feet
CNC Plasma Cutting	3000mm X 7000mm Bed with Plasma & Oxyfuel Torch.
Rolling Machine	Semi-automatic-1500mm Span with Bending capacity of 10mm Thickness Fully automatic 3000mm Span with Bending Capacity of 30 mm Thickness.
Square bending machine	2-meter span with bending capacity 20 mm
EOT Crane	25 MT and 10 Mt
Lathe Machine	20 feet length
Paint Shop	2000 sq. Feet with Sand Blasting Facility
Hydraulic Press	10 ton
Radial Drilling Machine	60 mm Chuck Size
Water Testing Capacity	50KL
Hydro Test Facilities	1 Bar to 100 Bar
Welding Machine	Mig/Tig/SMAW/FCAW
