

Rawat Banana Slicer Machine – High-Capacity Commercial Wafer Maker

About Product

The Rawat Heavy-Duty Banana Slicer Machine is an industrial-grade, high-capacity food processing solution engineered specifically for high-speed wafer production. Capable of slicing a massive 300 kg of bananas per hour, this machine effortlessly delivers uniform, ultra-precise slices directly into frying pans or collection trays. It is the absolute ultimate choice for commercial chips manufacturers, snack food industries, large catering units, and namkeen factories looking to maximize production speeds, ensure consistent thickness, and drastically reduce manual labor costs.

Core Highlights

- Made In India
- Massive production output of up to 300 kg per hour, heavy-engineered for bulk commercial supply
- Delivers ultra-precise, uniform thickness slices that ensure even frying and premium wafer crispiness
- Equipped with a multi-hole vertical feeding chute to safely and continuously accommodate multiple bananas simultaneously
- Full high-grade structural construction provides excellent rust resistance and ultimate food safety during wet processing
- High-speed cutting blade assembly minimizes fruit bruising, preserving the natural quality and color of the banana
- Compact, stable tabletop layout that integrates cleanly into fast-paced snack manufacturing lines

⚙️ Technical Specifications

- Brand: Rawat
- SKU: SKU-0084
- Product Type: Commercial Banana Slicer / Wafer Machine
- Production Capacity: 300 Kg/hr
- Operation: Electric / Semi-Automatic
- Voltage: 220 V
- Phase: Single Phase, 50 Hz
- Material: High-Grade Industrial Structure with Food-Safe Blades
- Slicing Type: Round Chips / Uniform Wafer Cuts
- Feeding Guide: Multi-Channel Tube Chute
- Country of Origin: India

Why Choose Rawat ?

- Revolutionizes snack manufacturing efficiency by replacing slow manual mandate slicing with high-velocity mechanical automation
- Uniform cut precision drastically improves product presentation, leading to higher market value and brand profitability
- Rigid mechanical build stands up to continuous daily production schedules with exceptionally low operational downtime
- Energy-efficient motor technology delivers high-volume hourly output while keeping daily commercial electricity bills low
- Complete operational peace of mind backed by Rawat's professional after-sales support and instant spare parts availability
- Proudly Made in India, heavy-engineered to perfectly match the high workloads and rugged conditions of busy Indian food processing industries
