

Rawat Premium 3 HP Rice Processing Mill – High-Yield Commercial Mini Rice Mill with Motor

About Product

The Rawat 3 HP Rice Processing Mill (SKU-0017) is an industrial-strength, high-yield post-harvest processing solution engineered for rapid and efficient rice de-husking and polishing. Driven by a powerful, high-torque 3 HP electric motor, this heavy-duty machine effortlessly processes raw paddy into perfectly clean, whole rice grains while

smoothly separating the husk and bran in a single pass. It is the absolute ultimate choice for small-scale agro-enterprises, rural entrepreneurs, agricultural cooperatives, and regional food processing units looking to automate milling operations, maximize head rice recovery, and minimize grain breakage.

Core Highlights

- Made In India
 - High-torque 3 HP motor delivers intensive crushing and milling power to handle high-volume paddy loads with ease
 - Single-pass milling technology efficiently de-husks and polishes paddy simultaneously, separating clean rice from waste
 - Advanced low-breakage engineering maximizes the recovery of whole head rice grains, boosting your market profitability
 - Heavy-duty structural frame construction offers immense stability and completely eliminates running vibrations
 - Integrated feeding hopper control allows operators to smoothly adjust the paddy flow rate for uniform processing
 - Compact and space-saving layout designed for easy installation in small rural mills, farms, or grain shops
-

⚙ Technical Specifications

- Brand: Rawat
- SKU: SKU-0017
- Product Type: Commercial Mini Rice Mill
- Motor Power: 3 HP
- Voltage: 220 V
- Phase: Single Phase, 50 Hz
- Operation: Electric / Semi-Automatic
- Body Material: Heavy-Duty Rigid Industrial-Grade Steel Frame
- Processing Mechanism: Heavy-Duty Sieve & Roller Milling Technology
- Suitable For: Paddy De-husking, Rice Polishing, and Grain Cleaning
- Country of Origin: India

Why Choose Rawat ?

- Drastically scales up agricultural business profits by replacing slow manual methods with fast, high-volume mechanical milling
- Delivers bright, uniformly polished, and clean rice grains that fetch premium pricing and higher profit margins in local markets
- Highly optimized single-phase electrical engineering ensures maximum processing throughput with low commercial energy bills
- Rugged, low-maintenance mechanical design stands up to heavy continuous use during peak harvest seasons with minimal downtime
- Total operational confidence backed by Rawat's professional after-sales network, technical guidance, and ready spare parts

- Proudly Made in India, heavy-engineered to perfectly match the high efficiency and rugged requirements of regional agro-processors
