

Rawat Premium Amla & Carrot Juicer Machine – Heavy-Duty Commercial Fruit & Vegetable Extractor

About Product

The Rawat Commercial Amla & Carrot Juicer Machine (SKU-0088) is a heavy-duty, high-efficiency extraction powerhouse designed to handle the toughest fibrous fruits and root vegetables. Engineered specifically for high-density ingredients like amla (Indian gooseberry), carrots, beetroot, ginger, and aloe vera, this machine utilizes a high-torque mechanical drive

to crush and extract maximum juice yield in a single pass. It is the absolute ultimate choice for commercial juice bars, health food centers, ayurvedic medicine processors, organic cafes, and catering businesses looking to automate intensive juicing operations while maintaining premium beverage quality and color.

Core Highlights

- Made In India
 - High-torque commercial motor configuration effortlessly processes tough, highly fibrous crops like amla and dense carrots
 - High extraction yield technology extracts maximum nutrient-rich juice while delivering a dry pulp discharge
 - Premium food-grade structural construction provides absolute resistance to citric/acidic corrosion and ultimate hygiene
 - Heavy-duty internal crushing and filtering assembly separates pulp smoothly with near-zero clogging or jamming
 - Extra-wide feeding chute minimizes preparation times by accommodating large ingredient batches simultaneously
 - Sturdy, vibration-absorbing base layout ensures absolute operational stability and low-noise commercial performance
-

⚙️ Technical Specifications

- Brand: Rawat
- SKU: SKU-0088
- Product Type: Heavy-Duty Commercial Juicer Machine
- Operation: Electric / Semi-Automatic

- Voltage: 220 V
- Phase: Single Phase, 50 Hz
- Material: Premium High-Grade Food-Safe Contact Parts
- Extraction Type: Centrifugal / Screw Squeezer (Heavy-Duty Grating & Pressing System)
- Suitable For: Amla, Carrots, Beetroot, Ginger, Aloe Vera, and Hard Apples
- Country of Origin: India

Why Choose Rawat ?

- Revolutionizes commercial beverage preparation by replacing slow manual processing with rapid, high-volume mechanical extraction
- Preserves natural vitamins, rich enzymes, and authentic flavors by minimizing friction-induced heat buildup during extraction
- Complete food-safe material assembly satisfies strict food-safety protocols and stands up to intense, daily acidic washdowns
- Highly optimized electrical engineering delivers high production throughput while keeping commercial power bills low
- Total operational peace of mind backed by Rawat's professional after-sales network, reliable support, and ready spare parts
- Proudly Made in India, heavy-engineered to perfectly match the high workloads and rugged conditions of busy Indian food and beverage businesses
