

Rawat Premium Garlic & Peanut Shelling Machine – 1 HP High-Efficiency Seed Peeler

About Product

The Rawat Garlic and Peanut Shelling Machine (SKU-0171) is an innovative, high-yield post-harvest processing solution designed to eliminate the tedious labor of manual peeling. Driven by an energy-efficient 1 HP electric motor, this dual-purpose machine uses specialized,

gentle friction technology to split and separate shells and skins from garlic cloves and peanuts without damaging the inner kernels. It is an excellent asset for food processing units, agricultural cooperatives, garlic paste manufacturers, and snack industries looking to optimize processing speeds while maintaining pristine product quality.

Core Highlights

- Made In India
- Smart dual-purpose functionality □ efficiently shells peanuts and peels garlic skins in a single compact setup
- High-yield separation mechanism ensures an exceptionally clean output with near-zero kernel breakage
- Driven by a robust, energy-efficient 1 HP single-phase motor optimized for smooth daily workloads
- Designed with high-quality, non-damaging peeling rollers that protect the shape and freshness of the food
- Heavy-duty industrial chassis structure eliminates operational vibrations and guarantees a long service life
- Compact, space-saving design that integrates cleanly into small-scale agro-processing and packaging lines

⚙️ Technical Specifications

- Brand: Rawat
- Product Type: Garlic & Peanut Shelling Machine
- Motor Power: 1 HP
- Voltage: 220 V
- Phase: Single Phase, 50 Hz

- Operation: Electric / Semi-Automatic
- Material: Heavy-Duty Industrial-Grade Body
- Processing Mechanism: Soft Friction Peeling & Shelling Technology
- Damage/Breakage Rate: Exceptionally Low
- Country of Origin: India

Why Choose Rawat ?

- Revolutionizes post-harvest processing speeds by replacing slow manual peeling with fast, high-volume mechanical automation
- Keeps operational costs remarkably low due to highly optimized single-phase motor energy consumption
- Uniform, clean results deliver a premium market look, helping your processed food items fetch higher profit margins
- Low-maintenance mechanical design stands up to heavy continuous use during peak harvest seasons with minimal downtime
- Full operational confidence backed by Rawat's professional technical network and ready spare parts support
- Proudly Made in India, heavy-engineered to perfectly match the high efficiency and rugged requirements of regional food processors
