Stay Protected with **100% Pure** Drinking Water

Water quality is deteriorating with increasing levels of harmful impurities like arsenic, fluoride, and heavy metals.

These contaminants pose serious health risks, including cancer, over time.

Transporting water through pipelines and storing it in tanks can further contaminate it, emphasizing the need for effective purification methods to prevent waterborne diseases.

KENT water purifiers utilize cutting-edge technology to remove impurities and eliminate bacteria and viruses while preserving essential minerals. With UV LED light in the storage tank, KENT ensures purified water stays pure. BIS Indian standards and NSF international certifications validate the quality and safety.

The KENT Advantage

Multiple Purification Process for 100% Pure Water

Makes water 100% pure by killing bacteria & viruses as well as removing dissolved impurities such as arsenic, rust, pesticides, & fluorides.

IoT-Powered Smart Monitoring

- Experience next-gen convenience with built in IoT intelligence.
- Real-time display of water quality and filter life through the mobile app.
- Automatic service call registration in case of any fault.
- Timely notifications before filter/ membrane life runs out.
- Complete service and parts replacement history available at a glance.

Keeping Purified Water Pure

UV LED light disinfection in the storage tank keeps purified water pure.

Highest Quality Certifications

KENT's Water Purifiers have been tested & certified by the world's best laboratories and been awarded NSF in USA & BIS (ISI) certificate in India.

KENT Exclusive Features

High Quality Sales & Service

Only brand to offer 1 year warranty + 3 years extended FREE service, along with a pan India prompt service network.

KENT'S Mineral Control

Retains essential natural minerals in purified water.

Digital Display of Purity & Minerals

Display of Purity & Minerals

The digital screen displays filter life, RO flow, tank capacity, RO pump, mineral capacity, power on/off function auto- flushing and a warning sign in case of a technical issue.

Million's Trust

India's most trusted* RO water purifier is used & trusted by over 1+ Cr people.

*As per a pan-India study by Coral Research, Services (Nov-Dec 2025) among 1159 RO water purifier owning households; results based on Top-2-Box ratings among over 1,055 Kent aware respondents.

KENT Sapphire IoT

IoT Powered RO Water Purifier
with Goodness of Active Copper & Alkaline

New
Launch

- **IoT INTELLIGENCE**
Real-time display of water quality and filter life. Automatic service call registration in case of any fault & timely notifications of filter/membrane life. Service and parts replacement history available
- **DIGITAL DISPLAY**
of Purity, Minerals & Filter Life
- Makes **ALKALINE** Water (8.0+ pH) & Infused with Goodness of **COPPER**
- **8 L PURIFIED** Water Tank
- **HIGH PURIFICATION RATE** of 20 L/hr.

RO+UF+UV+Alkaline+Copper+TDS Control+UV in Tank
