Submersible Pump

PUMPS | MOTORS | SOLAR

RANGE : V3,V4,V5,V6,V6-V7,V6-V8,V8,V9,V10

• PROSPARITY • PASSION • PERFORMANCE

SELF PRIMING & CENTRIFUGAL MONOBLOCK PUMPS

Performance :

Power range : 0.5 HP to 10 HP

Head Range : up to 60 meter

Flow range : up to 1800 lpm

Salient Features :

- Self priming up to 7.5 meters
- Wide voltage range
- Dynamically balanced rotor for longer bearing life
- Efficient performance
- Water lubricated
- Designed for silent and smooth operation
- Available in Aluminum & CI body

OPENWELL PUMPS

Performance :

Power range : 0.5 HP to 15 Hp

Head Range : up to 70 meter

Flow range : up to 1800 lpm

Salient Features :

- Highly durable motor body
- Optimally loaded motor for longer life
- Easily rewindable
- High efficiency
- Water lubricated
- Dynamically balanced rotating parts
- Available in SS and CI body

V3 & V4 SUBMERSIBLE PUMPSET

Performance :

Power range : 0.5 HP to 7.5 HP

Head Range : up to 340 meter

Flow range : up to 400 lpm

Salient Features :

- Light weight & easy to install
- High quality insulated winding wire for long life
- Engineering polymer for impeller & diffusers
- Available in aluminum and copper rotor
- Water lubricated
- Up to 60 stages

V5 & V6 SUBMERSIBLE PUMPSET

Performance :

Power range : 3 HP to 35 HP

Head Range : up to 490 meter

Flow range : up to 1700 lpm

Salient Features :

- Radial and Mix flow design for variable condition
- Special thrust bearing design
- 50 feet per stage pumps are available in SS material
- Wide voltage range
- Water lubricated
- Sturdy construction ensures long lasting performance
- ISI and 5 star rating available in selective models

V6/V7 & V6/V8 SUBMERSIBLE PUMPSET

Performance :

Power range : 5 HP to 35 Hp

Head Range : up to 250 meter

Flow range : up to 2300 lpm

Salient Features :

- Special LTB-4 bush for longer life
- Dynamically designed diffusers for high discharge
- Corrosion and abrasion free internals
- High efficiency
- Dynamically balanced rotary parts for long life
- Easily rewindable motor

V8,V9 & V10 SUBMERSIBLE PUMPSET

Performance :

Power range : 10 HP to 150 HP

Head Range : up to 400 meter

Flow range : up to 3800 lpm

Salient Features :

- Specially designed for high water requirement
- High quality insulated winding wire for long life
- Specially designed thrust bearing
- Available in Radial and Mix flow design
- Water lubricated
- More durability and high operating efficiency

DC & AC SOLAR PUMPSET

Features

- Voltage range according to MNRE guideline
- Available as per MNRE / SECI / PM KUSUM guideline
- SS robust construction
- NEEMA standards
- Smooth motor starting (VFD controller eliminate the high starting current)
- Water filled motor
- Cost-effective
- Energy-efficient
- Reliable and durable
- Eco-friendly
- Versatile

Performance of submersible pumps

Power range : 1 HP to 25 HP
Head Range : up to 250 meter
Flow range : up to 168750 lpd

Performance of surface pumps

Power range : 1 HP to 25 HP
Head Range : up to 100 meter
Flow range : up to 472500 lpd

AFTER SALES (SPARES)

Thrust bearing

Available in teflon, carbon and silicon carbide

Stain steel rotor :

Rotor are dynamically balanced for smooth and vibration free operation and protected with anticorrosive paints.

Diffusor and impeller :

Available in C.I. / S.S. & engineering polymer

Graded casting part

Graded casting parts protected with anti corrosive paints.

COMPANY PROFILE

A trusted brand since 1998, **SAMRUDDHI PUMPS** ranks high among the worlds fastest-growing fluid management solution providers with a wide global presence. We believe in providing quality products and service we ensure that products are of high quality and meet or exceed international specifications. With a strong distribution channel that include our retail locations and support service we ensure just in time

SAMRUDDHI PUMPS believes in providing quality products and services. We ensure that all products are of high quality and meet or exceed international specifications. With our strong distribution channel and support services we ensure just in time availability at reasonable prices. Customer Oriented Services Hard work and ethics have played a main role in building the strength of our company.

With Distribution centres and our own retail stores in key locations, we are serving customers in far flung regions of the world. Our quality policy covers all activities that impact the service we offer to our customers and is fully embedded into our overall business management systems.

WHY CHOOSE SAMRUDDHI PUMPS

1. Over 25 Years of Experience
2. Incredible Product Range
3. Efficient, Reliable and Durable Products with continuous improvment
4. Commitment towards customer satisfaction
5. One of Fastest growing Indian manufacturer of Water Pumps
6. Quality is the only criterion to prove the technology

VISION

To become organisation, where

- Customer delight is paramount
- Technology and innovation are the levers for growth
- Product quality and EHS are the foundation
- Employees are prime movers
- Sustainable and profitable growth is a way of life

MISSION

To deliver high quality products on time to our customers at competitive prices, not only to the locations where we operate directly, but also where we operate through our growth partners, thereby enhancing stakeholder
