ABOUT US

Select Best Solution is an ISO 9001:2015 certified manufacturer and trading firm established in 2013, specializing in Homogenizers, Dairy Equipment, Juice Processing Machinery, Dairy & Ice Cream Plants, and more. With over a decade of industry excellence, we are recognized for delivering robust engineering solutions tailored to the evolving needs of the Dairy and Food Beverage industry.

Backed by a modern manufacturing unit, advanced technologies, and a highly experienced team of Product Engineers, QC Professionals, and Networking Experts, we consistently deliver turnkey projects across India, Exporter. Our commitment to innovation, quality, and customer satisfaction has earned us the trust of over 1000+ happy clients and counting.

AT SELECT BEST SOLUTION, WE DON'T JUST BUILD MACHINES

WE BUILD RELIABLE PARTNERSHIPS FOR YOUR GROWTH.

DAIRY PROCESSING EQUIPMENT

Milk Pasteurizer Skid Mounted

Make	: **SB SOLUTION**	Gasket	: **Clip-on**
Capacity	: **300 LPH – 5000 LPH**	Temperature controller	: **Digital**
Application	: **Milk, Curd, Paneer, Coconut Milk, Juice**	Compact footprint	: **Easy installation and space-saving.**
Material	: **SS 316/304**	Connection	: **SMS Union**
Automaton	: **Automatic / Manual**	Power Supply	: **230/415V**

MILK PASTEURIZER
SKID MOUNTED

CURD PASTEURIZER
WITH SKID MOUNTED

PANEER PASTEURIZER
WITH SKID MOUNTED

FUNCTION

To Heat the Raw milk to a specific temperature for a short duration, then rapidly cool to preserving the milk's quality and nutritional value.

High Pressure Homogenizer

Function: Reducing the size of fat globules in milk, preventing cream separation and creating a stable, uniform.

Make	: SB SOLUTION
Capacity	: 200 – 5000 LPH
Pressure	: 10 to 500 kg/cm2
Steels	: Liquid End SS 304/316
Seals	: High Quality seal
Stage	: Two Stage Homo Head Manual/Hydraulic Operated
Connection	: SMS Union
Power Supply	: 230/415V

Storage Tank

Function: Holding and storing the Milk – In the Tank. With/ without insulation

Make	: SB SOLUTION
Capacity	: 100 – 10000 Ltr
Steels	: Stainless Steel 304/316
Type	: Vertical
Insulation	: Glass wool /PUF
Temperature Controller	: Digital
Slow speed	: Mixer
Power Supply	: 230/415V
Compartment	: Singe/Double

Feed Pump

Function: To Transfer Milk to storage tanks, or other equipment to processing or packaging lines.

Make	: SB SOLUTION
Capacity	: 0.5 – 10 HP
Steels	: Stainless Steel 304/316
Seals	: High Quality Mechanical seal
Impeller	: Investment Casting
Connections	: SMS Union
Power Supply	: 230/415V

Bulk Milk Cooler

Make	: SB SOLUTION
Capacity	: 100 – 5000 Ltr
Steels	: SS 304/316
Type	: Vertical/Horizontal
Insulation	: PUF
Temperature Controller	: Digital
Slow speed	: Mixer
Power Supply	: 230/415V

Function: Designed for quickly and efficiently cool large quantities of milk immediately after milking.

Ghee Boiler
Steam Processing

Milk Chiller

Make	: SB SOLUTION
Capacity	: 300 – 10000 LPH
Steels	: SS 304/316
Gasket	: Clip-on /glued
Seals	: food grade Gasket
Section	: Single/Two stage
Connections	: SMS Union

Function: Transferring heat between fluids, Milk and hot or cold water.

Milk Weighing Bowl With Weighing Scale

Accurately measure milk with our durable weighing bowl and digital scale combo. Designed for dairy efficiency and easy handling in every pour.

Milk Bottle Filling Machine

Precision-filled every time — our Milk Bottle Filling Machine ensures hygienic, fast, and accurate bottling. Ideal for dairies aiming for clean and consistent output.

Milk & Curd Pouch Packing Machine

Bottle Washing Machine

Thorough and reliable cleaning with our Bottle Washing Machine. Engineered for hygiene, speed, and consistency in every wash cycle.

Bottle Rinsing Machine

Ensure spotless hygiene with our high-speed Bottle Rinsing Machine. Designed for efficient cleaning before filling, perfect for dairy and beverage units.

Milk Khova Pan

Expertly crafted for traditional taste, our Milk Khova Pan ensures uniform heating and perfect thickening. Ideal for making rich, authentic khova with ease.

Milk Silo

Efficient bulk milk storage with our insulated Milk Silo — maintains hygiene and temperature control. Perfect for large-scale dairy operations.

Milk Powder Venture

Milk powder venturi systems use the Venturi effect to efficiently mix milk powder into liquids by creating a vacuum that draws the powder into the liquid stream, ensuring homogeneous, clump-free blending for food and dairy applications

Milk Can Scrubber

Thoroughly cleans milk cans with ease using our high-efficiency Milk Can Scrubber. Ensures hygiene, saves time, and boosts dairy productivity.

Butter Extruder

Shape & pack butter effortlessly with our precision Butter Extruder. Ensures smooth flow, accurate cutting, and hygienic handling every time.

Ghee Clarifier

Cream Separator

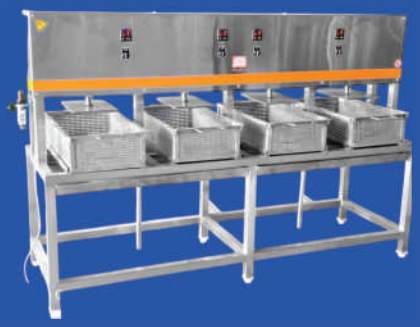

Ghee Filling Machine

Paneer Cooling Tank

Quickly cool and firm up paneer with our hygienic Paneer Cooling Tank. Maintains texture, quality, and freshness after pressing.

Pnuematic Paneer Pressing Machine

Get uniform shape and perfect texture with our Pnuematic Paneer Pressing Machine. Built for efficient drainage and consistent results in bulk production.

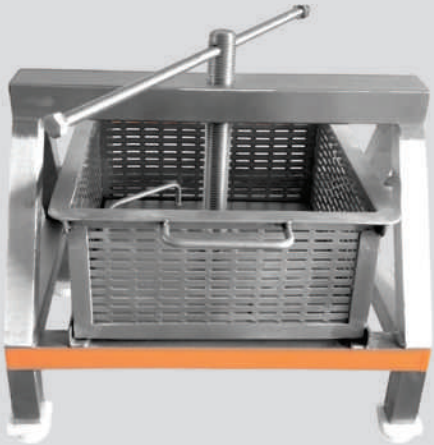

Paneer Innoculation Tank

Designed for controlled inoculation and curdling, our Paneer Inoculation Tank ensures perfect texture and quality. Hygienic, durable, and easy to operate.

Paneer Press Machine -Manual

Compact and easy to operate, our Manual Paneer Press Machine delivers consistent shape and firmness. Ideal for small-scale and traditional dairy setups.

Dump Tank

Robust and hygienic Dump Tank for safe milk transfer and storage. Built for dairy operations to handle bulk flow with ease.

Vacuum Packing

Butter Churner

Efficiently churn cream into rich, smooth butter with our high-performance Butter Churner. Ideal for consistent texture and hygiene in every batch.

Cheese Vat

Designed for precise curdling and fermentation, our Cheese Vat Machine ensures high-quality cheese production. Durable, hygienic, and perfect for artisan or commercial dairies.

Cheese Pressing Machine

Achieve perfect texture and shape with our Cheese Pressing Machine. Built for uniform pressure and efficient cheese production.

Hot Water Generator

Instant and energy-efficient hot water with our advanced generator system. Ideal for dairy and food industries requiring consistent heating.

Operating Type:
Fire Wood/Electric/Diesel

Multipurpose Vat

Versatile and efficient, our Multipurpose Vat Machine handles heating, mixing, and processing with ease. Perfect for dairy, food, and beverage industries.

Steam Boiler

High-performance Steam Boiler for reliable and consistent steam generation. Perfect for dairy, food, and industrial processing needs.

Instant Chiller

Rapid cooling with our high-performance Instant Chiller — lock in freshness instantly. Ideal for milk and beverage industries demanding quick temperature control.

Countries of Export

United State	Sri Lanka	Singapore	Bangladesh	Oman
Comoros	Malaysia	Ghana	Dubai	Nepal
