Company Profile

Speed cut CNC solution is the customer face of Speed Tech Services group, Nasik largest tool manufacturing group. The Speed Tech Services was set up in 2009 by Mr Prasad Bhavsar with reach experience in CNC Machines along with dedicated team. We are a leading manufacturer & Job work contractor in Nasik & Sinner. As we have in house research & development team we will provide you tooling solution along with trial on machine with program as per drawing. No need to waste your manpower, tooling cost & machine hours for trial. Our purpose is to satisfy & fulfil all the needs of our customer by delivering high quality products within deadline. Our goal is to be customer oriented & to work on different application areas.

Infrastructure Highlights

- ❖ Office of 2500 sq. feet.
- ❖ High tech manufacturing plant in Nasik of 3000 sq. feet.
- ❖ High tech manufacturing plant in Vilholi, Nasik of 2000 sq. feet
- ❖ High tech manufacturing plant in Sinnar of 2200 sq. feet.
(Specially dedicated to Ring Plus Aqua Pvt. Ltd.)
- ❖ Best in class machining facility backed by a team of technical experts.

Setup

❖ High precision CNC machines

▪ACE Micrometrics (SJE 10LM Model)

Key features:

1. Chuck dia. – 200mm
2. 11-15 HP power.
3. Maximum turning diameter. – 370mm
4. Maximum turning length. – 550 mm
5. Distance between centre – 615mm

▪ACE Micrometrics (SJE 10LM Model)

Key features:

1. Chuck dia. – 200mm
2. 7.5-11 HP power.
3. Maximum turning diameter. – 370mm
4. Maximum turning length. - 550 mm
5. Distance between centre – 615mm

▪ACE Micrometrics

Key features:

6. Chuck dia. – 200mm
7. 7.5-11 HP power.
8. Maximum turning diameter. – 370mm
9. Maximum turning length. - 350mm
10. Distance between centre – 450mm

■ACE Micrometrics (SUPER JOBBER 500LM)

Key features:

11. Chuck dia. – 200mm
12. 7.5-11 HP power.
13. Maximum turning diameter. – 370mm
14. Maximum turning length. - 550 mm
- 15.Distance between centre – 615mm

■ACE Micrometrics (SUPER JOBBER 500LM)

Key features:

16. Chuck dia. – 200mm
17. 7.5-11 HP power.
18. Maximum turning diameter. – 370mm
19. Maximum turning length. - 550 mm
- 20.Distance between centre – 615mm

❖ High precision CNC Milling machines

▪ VMC MACHINE

Key features:

1. X axis travel – 500mm
2. Y axis travel – 500mm
3. Z axis travel – 500mm
4. Table size – 500x500mm
5. Motor power – 2.5 / 3 HP

❖ High precision CNC Milling machines

▪ VMC MACHINE

Key features:

6. X axis travel – 800mm
7. Y axis travel – 500mm
8. Z axis travel – 500mm
9. Table size – 1000x500mm
10. Motor power – 7.5 / 11 HP

❖ DRO Milling Machines

Qty: 3 Nos.

❖ Lathe machines :

Qty: 2 Nos.

❖ Drilling- Tapping machine

❖ Automatic Band saw cutting machine.

❖ All other allied activities are carried out under one roof like,

- Grinding & Buffing.
- Blasting & Electro plating.
- Laser marking.

What our valued business partners can expect from us

- ❖ Precise machined components.
- ❖ Research & Development of various components.
- ❖ Reverse engineering.
- ❖ Technical support for your critical components.
- ❖ Material cutting.
- ❖ Various metal finishing and coating processes.
- ❖ Laser marking.

Vision

Our vision is to be the reliable long term sub-contracting manufacturing partner of modern industrial companies & to expand across multiple markets to become a more dynamic company.

Mission

By adopting various new technologies, attributes available with cost cutting & improvising in productivity. In order to give every new solution in CNC technology with flexibility in order to become world class service provider that excels above all other. First in choice & to remain first in mind for every critical CNC solution.
