FEATURES & BENEFITS

- The RFT Tyre Changer is designed specifically for run-flat and ultra-low-profile tyres, ensuring damage-free mounting and dismounting. This machine is built to handle delicate tyres with precision, making it ideal for workshops dealing with premium and performance vehicles. The high-powered bead breaking mechanism ensures that even the toughest tyres can be removed without damage.

TECHNICAL SPECIFICATION

Power supply	220V, 5Hz
Motor Power	0.75 - 1.1 kw
Bead - Remove Cylinder	2500 KG
Operating Pressure	0.8 – 1 Mpa
Rim Diameter	255 – 260 mm (10" – 22")
Rim Width	76 – 410 mm (3" – 16")
Max Wheel Diameter	1,000 mm
Noise	< 70 db
