

AUTOMATIC WELDING CARRIAGE WTRY-STITCH-II

Function Characteristics

- High-performance magnet increases the reliability and ensure the stable operation
- During welding process, the carriage will stop if there is any obstruction (Limit Switch)
- Possible to select continues welding mode or stick welding mode
- Welding interval and non-welding interval can be Programmed.
- The magnet release lever provided for ease of operation.

ITEM

Description

Machine Model	WTRY-STITCH-II
Input Supply	230 Volts Single Phase 50 Hz Supply
Drive Method	4 Wheel Drive
Traction Power	20 Kg
Travel Speed	35-950 mm/Min
Tracking Mode	Guide Wheel
Height of Guide Wheel	Adjustable by three positions
Torch Horizontal / Vertical Movement	40 mm
Adjustable Welding Angle	40-55 Degree
End Limit	By Limit Switches
Dimensions	280 x 295 x 265 mm
Weight	9 Kg
