

Cable Float Switch

Principle :

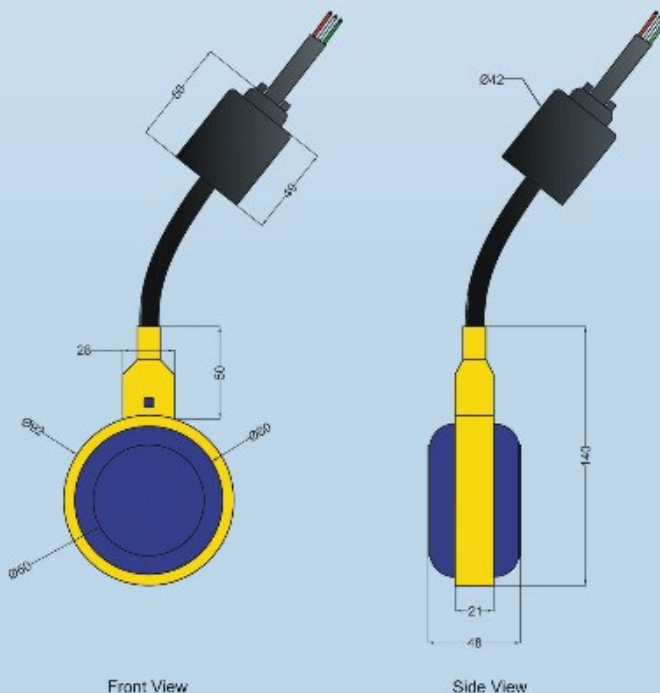

Cable Float Switch is suitable for single or multilevel sensing. The float switch is resistant to chlorine & sewage water. It is highly reliable and round shape will help in long durability.

Technical Parameter :

Micro switch	: 10(8)250V~10(4)A 380V
Float MOC	: PP
Ingress Protection	: IP68
Protection	: Water Proof
Max Temperature	: 70 Deg C
Working Pressure	: Max 1 bar
Circuit breaking capacity	: Directly 1KW with 250V

Shape Dimension :

Filpro Sensors Pvt. Ltd.
