

Swati®

WATER PURIFICATION

An ISO 14001:2015 certified company

एन एस आई सी
NSIC
ISO 9001 : 2008

Product Catalog

Manufacturer, Suppliers, Exporters & Service Provider for

- ◆ Sewage Treatment Plant (STP) - MBBR / MBR / SBR
- ◆ Industrial RO / Commercial RO (Customized RO - Drinking RO / Concrete Mixing RO / Centralized RO etc...)
- ◆ Water Treatment Plant (WTP)
- ◆ Water Softener Plant (Domestic & Industrial)
- ◆ Pressure Booster System (VFD) / Hydropneumatic-Pressure System (HPN/HYPN)
- ◆ Waste Water Treatment Plant (WWTPS)
- ◆ Grey Water Treatment Plant (GWTP)
- ◆ DM Water Plant / Demineralisation
- ◆ Effluent Treatment Plant (ETP)
- ◆ Mixed Bed Plant

M. 98251 83643

www.swatiwaterpurification.com

We, Swati water Purification Company established in 2005. We are in to manufacturing, supply & service providing for all type of Water Treatment Plants, Waste water Treatment Plants & Water Purification Systems. We are working with total team of 30. We are Ahmadabad (GUJARAT) based company. We provide our services at Pan India level & also for export purpose. We have more than 2000 clients

We provide after Sales, Services with Operation & Maintenance.

Category We Served

- Residential & Commercial Buildings
- Real Estate / Residential Complex
- Hospitality Industries Hotel | Restaurant | Resort
- Food & Beverages Industries | Dairy Industries
- Hospital | Healthcare Facilities
- Public Place | Holly Place
- Steel & Metal Finishing & Planting Industries | Mining Industries
- Automobile & Engineering Industries
- Power & Energy / Power Generation Industries
- Chemical & Petrochemical Industries
- Semi Conductor and Electronics Manufacturing Industries
- HVAC Systems
- Educational Industries
- Pharmaceuticals & Bulk Drug Manufacturing Industries
- IT Parks & Office Complexes
- Oil & Gas / Refineries Industries
- Govt. Sectors
- Textile & Dyes | Pulp & Paper Industries
- Manufacturing Process Industries
- Paint Industries
- Airports | Railway Stations | Industrial Parks | Aerospace
- Agriculture | Pesticides

SEWAGE TREATMENT PLANT

Now a days the **Sewage Treatment Plant (STP)** became statutory requirement of all the State Pollution Control Boards, everybody, whether Hotelier or Industrialist are looking for economical, easy to install and operate compact type Sewage Treatment Plant.

Technologies Used :

MBBR : Moving Bed Bio Reactor

MBR : Membrane Bio Reactor

SBR : Sequential Batch Reactor

STP - 200 KLD

STP - 150 KLD

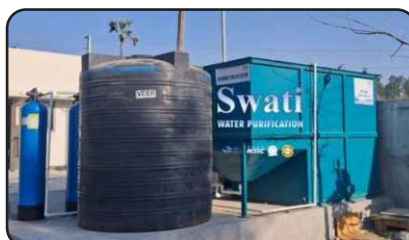

STP - 100 KLD

STP - 50 / 75 KLD

STP - 25 KLD

STP - 10 KLD

SBR TECHNOLOGY SEWAGE TREATMENT PLANT

SEWAGE TREATMENT PLANT (Civil Type)

ULTRA FILTRATION PLANT (UF)

8.0 m³ / hour (Auto)

UF Process

UF can be used for removal of particulates and macromolecules from raw water, to produce potable water. It has been used to either replace existing secondary (sedimentation) and tertiary filtration and chlorination systems employed in water-treatment plants.

15.0 m³ / hour (Auto)

WATER SOFTENING PLANT

Importance

It utilizes strongly acidic cation exchange in sodium forms. The sodium ions are exchanged for Calcium & Magnesium ions which form low hardness and so the water becomes soft.

MSEP Rubber Lining Water Softening Plant

How Works

After exhaustion the resin is regenerated using sodium chloride (salt). The technique of counter flow regeneration is used to produce water to flow residual hardness is commercial zero hardness.

PRESSURE BOOSTER SYSTEM (VFD)

A Pressure Pump is a pump with some sort of electrical switch on it which turns the pump off when the system pressure reaches a pre-set point, sometimes this is fixed and sometimes it is adjustable. When your Pressure Pump is running and a tap on the system is open, the water flows out of the tap.

A booster pump increases low water pressure and flow. It provides the extra boost needed to bring your water pressure to the desired level. A water booster pump provides pressure to move water from a storage tank or throughout a whole house or commercial facility.

DRINKING RO / CONCRETE MIXING RO CENTRALIZED RO / INDUSTRIAL RO

RO 30000 LPH

RO-24000 LPH (24 M3/Hr)

RO-20000 LPH (20.0 M3/Hr)

RO 15000 LPH
