Your Packaging. Our Craft. Since 1998.

Dynamic Packaging is a flexible packaging manufacturer based in Tumkur, Karnataka — producing laminated pouches and rolls, BOPP bags, and bulk sacks for businesses across South India. Design, printing, lamination, and finishing — all in-house, under one roof.

What sets us apart is not the range. It's the way we work. Before an order is placed, we tell you what will work, what won't, and why. When a job is on the floor, we treat it like it has our name on it — not yours.

1,000+ businesses across South India trust us with their packaging. They keep coming back. That's the only proof we need.

— YOUR TRUSTED TEAM BEHIND EVERY PRODUCT —

Superior raw materials, every batch

Designed in-house, printed to perfection

One facility. Every format you need

Delivered on time, every time

Built to your exact spec, every order

Your Packaging. Our Responsibility

DYNAMIC
PACKAGING

Our Process

1. Idea & Concept

You tell us what you need – the product, the format, the look. We ask the right questions and tell you what will work before anything is designed.

2. Design & Pre-Press

Our in-house team creates your artwork and prepares it for print. What you approve is what goes on press.

3. Printing

Your design goes on press with one focus: colour accuracy and consistency, every run.

4. Processing & Production

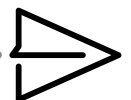

Lamination, slitting, pouch making, bag finishing – every step handled in-house, to spec.

5. Quality Analysis

Samples from every batch are checked before anything leaves. If it doesn't meet standard, it doesn't ship.

Dispatch

Laminated Rolls

Multi-layer printed film rolls for high-speed form-fill-seal packaging lines. Supplied to your exact width, film structure, and print spec — consistent colour and barrier performance across every metre.

Suitable for:

- Grains, Flours
- Namkeens
- Coffee/ Tea/ Beverage mixes
- Spices & Spice mixes

Available to Pack
From 10 g to 10 kg

Centre Sealed Pouches

Sealed along the centre back and both ends. A high-strength, cost-efficient format compatible with automated filling lines — printable on both sides for maximum brand visibility.

Suitable for:

- Grains, Flours
- Namkeens
- Coffee/ Tea/ Beverage mixes
- Spices & Spice mixes
- Fertilizers

Available to Pack
From 10 g to 10 kg

3 Side Sealed Pouches

Sealed on three sides for a flat, compact form. Easy to stack, best suited for multi track packing machines — a versatile format across food, pharma, and FMCG products.

Suitable for:

- Fertilizers
- Ready to eat Chapathi/ Parota/ Poori
- Ginger Garlic Paste
- Sweets

Available to Pack From 10 g to 10 kg

Standing Pouch/ Spout Pouch/ Idly Dosa Batter Pouch

Whether it's a self-standing retail pack, a resealable spout format for liquids, or a leak-proof pouch for wet batter — Each variant is built for product-specific performance, ensuring freshness, hygiene, and strong shelf presence.

Suitable for:

Standing Pouches : Spices Namkeens Coffee Powder Tea Powder etc.

Spout Pouches : Pastes juices

Idly Dosa Batter Pouches : Idly/ Dosa Batter, Ready eat gravies, Ready mixes

Available to Pack From 50 g to 1 kg

Centre Sealed Gusset Pouches

Expandable side gussets with a centre back seal — more volume, stable stacking, and a stronger shelf presence. Built for higher-weight products that need the extra capacity.

Suitable for:

- Grains, Flours
- Coffee/ Tea/ Beverage mixes
- Spices & Spice mixes
- Fertilizers

**Available to Pack
From 500 g to 10 kg**

Window Metalized Pouches

Metalized barrier with a transparent window panel — barrier protection and product visibility in one format. Lets the product sell itself while the packaging protects it.

Suitable for:

- Grains
- Coconut Powder/ Flakes
- Premium Products

**Available to Pack
From 500 g to 10 kg**

BOPP Laminated PP Woven Bags

Built for bulk — grains, flour, fertilizers, chemicals, and agri commodities. Six formats across print quality, barrier level, and price point.

1. BOPP Shopping Bags with Handle

Small handle bags made from BOPP laminated woven PP. Lightweight, portable, and easy to brand — used for promotional packs, and small-quantity retail.

2. BOPP Laminated Bags

Printed BOPP film laminated onto woven PP fabric — combining the print quality of BOPP with the strength of woven PP. The standard choice for mass packaging of grains, flour, and fertilizers.

3. Metalized BOPP Laminated Bags

BOPP laminated bags with an additional metalized BOPP layer — offering enhanced moisture barrier and a premium metallic appearance over standard laminated bags. Suited for products where shelf presence and protection both matter.

4. BOPP Laminated Bags with Liner

A BOPP laminated woven bag fitted with an inner polyethylene liner for additional moisture and water resistance. The right choice for fertilizers, chemicals, and hygroscopic products that require a secondary barrier.

5. Flexo Printed Woven Bags

Woven PP bags printed using flexographic printing — available with or without lamination. A cost-efficient option for mass commodity packaging and secondary applications where straightforward print quality meets the requirement.

6. Window Metalized BOPP Bags

Metalized BOPP laminated bag with a transparent window panel on the gusset — combining metallic shelf appeal with direct product visibility. Used in premium agri and food segments where presentation is a purchase driver.

Flexo/ Digital & General Commodities

Flexo Printed PP Covers

Cost-effective polypropylene covers for straightforward packaging needs. No cylinder costs, fast turnaround — ideal for short runs and secondary packaging applications.

Suitable for:

- Bakery bread & Toast packaging
- Secondary packing of smaller pouches
- Economy packagings

Available to Pack From 500 g to 5 kg

Rich Wraap Silver Pouches & Plain Standing Pouches

Silver pouches offer barrier protection and a clean metallic finish — ideal for short-term food packaging and retail parcels. Plain standing pouches are an entry-level self-standing format, easily personalised with stickers or labels, making them a practical choice for small businesses and trial runs.

Silver Pouches available in sizes :
5 X 7, 6 X 8, 8 X 10, 9 X 12

Digitally Printed Pouches/ Laminate Rolls

No printing cylinders, no minimum order constraints — digital printing is the fastest way to get your packaging to market. Per-unit cost is higher than roto-gravure, but the speed and flexibility make it the right choice for product trials, seasonal SKUs, and slow-moving products where gravure printing isn't viable.

Suitable for: New Product Launches · Trial Runs · Seasonal & Limited-Edition Packs · Premium Short-Run Products

Tell us what you need.

We'll take it from there . . .

Share your product, your quantity, and your timeline
and we'll come back with the right format, the right spec, and a quote.
No back and forth. No jargon.
