About Us

MedicinesFromIndia.com is the online presence of Healing Exim Medicine Exporter. We handle pharmaceutical product enquiries for international buyers and support sourcing, quotations, product information and shipment coordination, subject to applicable laws and regulatory requirements.

Product Categories

Pharmaceutical Tablets A broad range of oral pharmaceutical formulations for legitimate commercial and institutional requirements.	Anti-Cancer Medicines Specialized pharmaceutical products supplied only where applicable regulatory and buyer requirements are satisfied.
API Raw Powder Raw-material enquiries for qualified B2B buyers, subject to product availability and compliance requirements.	Erectile Dysfunction Medicines Prescription pharmaceutical products for lawful, qualified supply channels and permitted destinations.
Pain Management Selected pharmaceutical products for professional sourcing and export enquiries.	Specialty Medicines Send us the generic name, strength, dosage form, manufacturer preference and required quantity.

Why Work With Us

Product Sourcing	Share your product requirement and our team can review availability and relevant commercial information.
B2B & Bulk Enquiries	Quotations can be prepared according to product, quantity, packaging, destination and availability.
Documentation Support	Applicable commercial and product documentation can be discussed for the specific order and destination.
International Coordination	We support export enquiries and logistics coordination subject to applicable export and import rules.

How to Request a Quote

- 1. Send your requirement:** product/generic name, strength, dosage form and required quantity.
- 2. Add destination details:** country and any known import or documentation requirements.
- 3. Receive commercial information:** availability, packaging and quotation details as applicable.
- 4. Confirm & coordinate:** after applicable commercial and regulatory requirements are completed, shipment coordination can proceed.
