About Us

At Metro Laser, we redefine precision through advanced laser cutting, bending, and fabricating services. Based in Pune's industrial hub, we serve a wide range of industries with tailored solutions designed to meet diverse manufacturing needs. Our focus on quality, innovation, and efficiency ensures every project is handled with the highest standards of excellence.

Our consistent repeat orders reflect the trust we've earned by delivering reliable results through state-of-the-art technology and expert craftsmanship. At Metro Laser, we don't just meet expectations – we exceed them, empowering businesses with the precision and performance they need to stay ahead

Vision

To become India's leading one-stop solution for sheet metal manufacturing, delivering exceptional quality, precision, and on-time performance while setting industry benchmarks in innovation, safety, and customer satisfaction.

Mission

We are committed to delivering the best manufacturing solutions by

Fulfilling Customer Commitments

LASER CUTTING

Machine 1

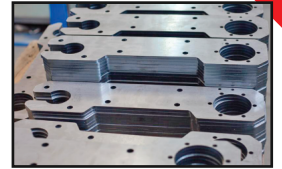

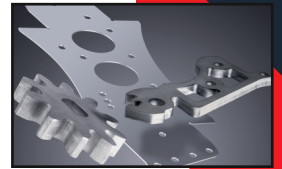

Make : 
Type : Fiber Laser
Bed Size : 2500 X 6000

Machine 2

Make : 
Type : Fiber Laser
Bed Size : 1500 x 3000

Machine Capacity

Mild Steel	: up to 25 mm	Brass	: up to 10 mm
Stainless Steel	: up to 30 mm	Copper	: up to 10 mm
Aluminum	: up to 25 mm	Titanium	: up to 06 mm

BENDING

Machine 1

Make : 

Machine 2

Make : 

Machine Capacity

Length size : 4100 mm
Force : 320 Ton
Material Thickness : **0.5 to 12-16-20mm**
Specialty : Radius Bend

Machine Capacity

Length size : 3100 mm
Force : 220 Ton
Material Thickness : **1 to 10 mm**

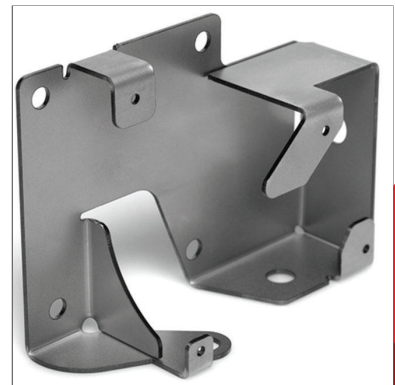

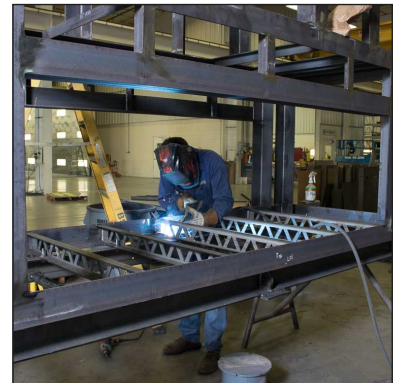

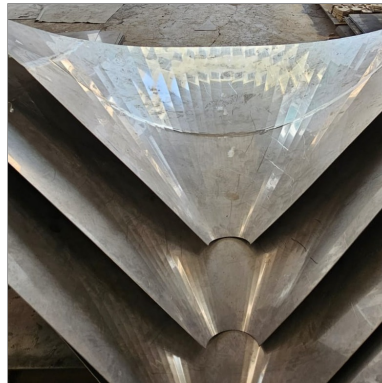

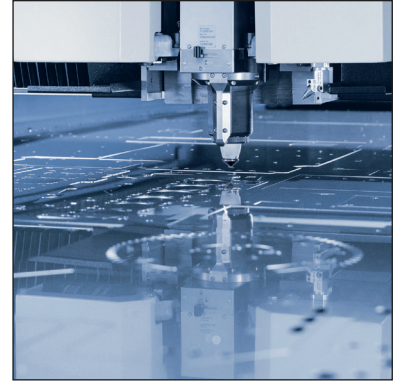

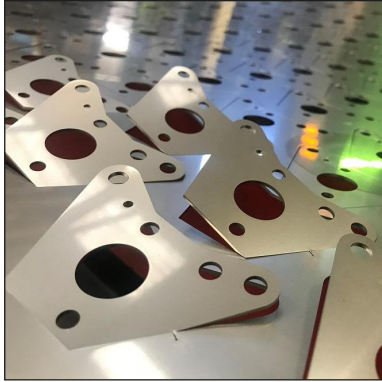

COMPLETE METAL FABRICATION & WELDING SOLUTIONS

- * **High-Precision Welding:** MIG, TIG, and Spot Welding for strong, durable joints.
- * **Wide Material Compatibility:** Works with Mild Steel, Stainless Steel.
- * **Industrial & Custom Projects:** Suitable for automotive, construction, machinery, enclosures, and structural components.
