Buyer questions, answered clearly.

What is the standard size?

22 x 33 cm / 9 x 13 in is the regular roll-bag format. Custom sizes are available.

Can the bags be printed?

Yes. Logo, pattern, colour and retail packaging can be customized for private-label programs.

What packaging formats work?

Refill rolls, tie-handle bags, dispenser bundles, colour boxes, kraft boxes and master cartons.

Can fragrance be added?

Unscented, lavender, lemon and ocean fragrance options can be planned.

Which thickness can be supplied?

12-25 micron options can be planned depending on target price, strength and material.

Which materials are available?

HDPE, LDPE, recycled plastic and compostable material options are available.

Are compostable options possible?

Yes. Compostable options are available with applicable certifications and buyer requirements.

Which markets are supplied?

Current export markets include USA, Mexico, UAE, Tanzania and more.

Let us build your next pet waste bag program.

Share your target size, material, thickness, roll count, print artwork and packaging format. Our team can support sampling, costing and export-ready production planning.
