

"Introducing our state-of-the-art Ultrasonic Poultry Manure Belt Welder Machine! Designed to streamline poultry farm maintenance, this innovative technology ensures seamless welding of manure belts, enhancing durability and efficiency. Our machine guarantees precision and reliability, allowing farmers to focus on productivity with peace of mind. Experience the future of poultry farming maintenance with our Ultrasonic Poultry Manure Belt Welder Machine.

A poultry manure belt welder machine is a specialized piece of equipment used in poultry farming to maintain and repair the manure conveyor belts. These belts are essential for removing poultry waste from the housing environment, thereby ensuring cleanliness and promoting healthy conditions for the birds

SPECIFICATION

Frequency (Khz)	40
Power (Watt)	500
Welding Tip	Standard, also make customized as per requirement
Actual Weight	Approx. 9 kg
Actual Size (L X W X H)	Approx. (360 x 213 x 287) mm
Packaging Type and Size	Corrugated Box and Approx. Size (458 x 311 x 385) mm

Operational Requirement

Input Power Supply	AC 230V 50/60Hz, 6Amp
--------------------	-----------------------

FEATURES

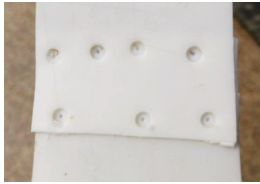

1. Inbuilt controls and a user- friendly interface for ease of use by farm personnel.
2. Adjustable Temperature Control
3. Compact and lightweight design, making it easy to transport and operate in various locations within the poultry facility.
4. Made from high-quality materials to withstand the harsh conditions of a poultry farm.
5. Designed to perform consistently over long periods, reducing downtime and maintenance needs.
6. Some models may include automatic shutoff features to prevent overheating and other safety hazards.
7. Allows for the adjustment of welding speed to match the specific requirements of the belt and repair task.

ADVANTAGES

1. Reduced Labor Costs
2. Reducing the risk of environmental contamination.
3. Welding eliminates the need for adhesives or other chemicals used in mechanical splicing, which can be harmful to the environment.
4. Efficient manure removal reduces the risk of disease outbreaks within poultry houses, promoting better overall flock health.
5. Welded joints maintain consistent quality, leading to fewer breakdowns and more reliable operation.
6. Effective manure removal leads to a cleaner environment for the poultry, reducing the risk of disease and improving overall flock health

APPLICATION

◆ Conveyor Belt ◆ H-Layer Battery Cages ◆ Poultry Manure Belt
