

PUFF CORN MACHINE

ADVANTAGES

High Production Capacity

The machine can produce a large quantity of puffed snacks continuously, ideal for commercial scale.

Uniform Shape & Texture

Ensures consistent size, crispiness, and appearance in every puffcorn piece.

Versatile Snack Production

Can be used to make different types of extruded snacks like puffcorn, rings, curls, cheese balls, etc.

Energy Efficient Operation

Latest models consume less power compared to older extrusion systems

Customizable Output

Adjustable cutting system and die shapes to create multiple snack designs and sizes.

Improved Food Safety

High-temperature extrusion destroys harmful bacteria, ensuring safe, ready-to-eat snacks.
