About SAFETY सारथी

Welcome to Safety सारथी, your trusted partner in fire protection solutions. With a rich experience rooted in a commitment to safety, innovation, and excellence, Safety सारथी has been lighting the path to safety for a decade now.

WHO WE ARE:

Safety सारथी is a leading provider of fire protection & safety solutions, serving clients across India. Established in 2016, Safety सारथी has evolved into a dynamic organization known for its expertise, reliability, & customer-centric approach.

OUR TEAM:

At Safety सारथी, our team is our greatest asset. Led by founders Mr. Sagar Kulkarni and Mrs. Mansi Kulkarni, our dedicated professionals bring years of experience and expertise to every project. Together, we are committed to delivering innovative and reliable fire protection solutions tailored to our clients' needs.

OUR COMMITMENT:

At Safety सारथी is at the heart of everything we do. We are dedicated to safeguarding lives and property through comprehensive fire protection solutions, ensuring compliance with all regulatory standards. With a focus on continuous improvement and customer satisfaction, we strive to create safer environments for our clients and communities.

Company Vision & Mission

■ VISION :

To be the leading provider of fire protection and safety solutions across India and beyond, renowned for our unwavering commitment to quality, innovation, and customer satisfaction. We envision a future where every building and public space is equipped with state-of-the-art fire safety systems, significantly reducing the risk of fire-related incidents.

■ MISSION :

At Safety सारथी our mission is to safeguard lives and property through innovative, reliable, and comprehensive fire protection solutions. We are committed to delivering excellence in the design, installation, and maintenance of fire safety systems, ensuring compliance with all regulatory standards. Through continuous training, advanced technology, and a dedicated team, we strive to create safer environments for our clients and communities.

FIRE DOOR & FIRE CURTAINS

Products Offered

FIRE EXTINGUISHERS

A critical first line of defence, our fire extinguishers comply with IS2190 and NFPA 10 standards, ensuring quick and effective action.

FIRE HYDRANT SYSTEMS

Ensure your designs are equipped with reliable fire hydrant systems that provide powerful streams of water to combat larger fires. These systems are designed by following IS3844, IS13039, and NFPA 25 standards.

FIRE SPRINKLER SYSTEMS

Automatic fire sprinklers are a must-have for any modern building. These systems adhere to IS15105 and NFPA 25 standards, activating in response to high temperatures to provide immediate suppression.

FIRE DETECTION SYSTEMS

Early detection is crucial. Our fire detection systems comply with IS2189 and NFPA 72 standards, alerting occupants at the first sign of smoke or fire, giving them precious time to evacuate safely.

FIRE SUPPRESSION SYSTEMS

For specialized areas, we offer a range of fire suppression systems:

- UL Approved Clean Agent Fire Suppression System: Ideal for server/data centers, telecom, battery rooms, & other sensitive equipment rooms.
- LPCB Approved Tube-Based Clean Agent Suppression System: Perfect for electrical panels, closed compartments, and server racks.
- UL Approved Kitchen Suppression System: Specifically designed for commercial kitchens to ensure quick and effective fire suppression.
- UL and VDS Approved Inert Gas Suppression System: Suitable for large rooms, providing extensive protection.
- UL Approved CO2 Suppression System: Best for unmanned server/data centers and paint shops.

FIRE DOORS AND CURTAINS

Create barriers against fire and smoke with our customized high-quality fire doors and curtains, designed as per IS3614, to compartmentalize and control the spread of fire within a building.

Specialized Services To Keep **Your Designs Safe**

FIRE FIGHTING SYSTEM DESIGN

Craft custom fire fighting system designs tailored to your building's unique requirements, ensuring optimal protection and compliance with the latest safety standards.

FIRE SAFETY CONSULTATION

Receive a complete 360-degree solution from designing to execution. Our expert consultation covers every aspect of fire safety, ensuring your project meets all regulations and achieves optimal protection.

REFILLING OF FIRE EXTINGUISHERS

Regular maintenance is key to reliability. Our refilling service ensures that your fire extinguishers are always ready for action.

ANNUAL MAINTENANCE CONTRACTS

Opt for our comprehensive maintenance contracts to keep all fire safety systems in top condition, ensuring ongoing protection.

ONE-TIME REPAIRS

Address any issues promptly with our one-time repair services, designed to fix problems quickly and efficiently.

FIRE FIGHTING AUDITS

Our thorough audits assess the effectiveness of your fire safety measures, providing you with detailed reports and recommendations for improvement.

FIRE FIGHTING LICENSING (NOC)

Navigating fire safety regulations can be complex. We assist in obtaining the necessary licenses and NOCs to ensure compliance.

BASIC AND ADVANCED FIRE FIGHTING TRAINING

Empower your clients and their staff with essential fire fighting skills. Our training programs range from basic fire fighting to advanced techniques and first aid, ensuring everyone is prepared in case of an emergency.

Why Choose

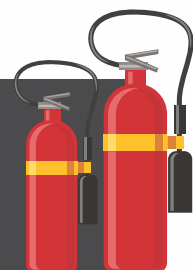

SAFETY सारथी

GOVT. APPROVED CLASS-A LICENCED AGENCY

At Safety सारथी, we prioritize your safety and peace of mind. Here's why you can place your trust in us:

- **Experienced Team** : Our team comprises highly skilled professionals with extensive experience in fire safety, ensuring you receive top-notch protection.
- **Comprehensive Services** : From design to installation and maintenance, we cater to all your fire safety needs. We also offer annual maintenance contracts, repair services, and in-depth training programs.
- **Government Accreditation** : As a Class "A" licensed agency by Maharashtra Fire Services, we comply with all regulatory standards, offering you peace of mind and assurance.
- **Advanced Technology** : We leverage the latest technology to provide innovative and reliable fire safety solutions tailored to your specific requirements.
- **Customer-Centric Approach** : Your satisfaction is our top priority. We deliver personalized solutions and exceptional service to ensure your safety and security.
- **Extensive Reach** : Beyond our presence in Pune and Mumbai, we have plans for expansion across India and internationally, ensuring we are always within your reach.
- **Unwavering Commitment to Safety** : Safety is at the core of our operations. Our team undergoes continuous training to stay abreast of the latest safety standards.
- **Technical Expertise** : As a knowledge-driven organization, we possess comprehensive technical know-how of all fire fighting systems, positioning us as leaders in the field.
- **Up-to-Date Compliance** : We constantly update our knowledge on IS, NBC, and NFPA standards for fire fighting, as well as any other applicable regulations. This ensures our clients remain compliant with the latest norms, avoiding any legal or compliance issues.

Choose **Safety सारथी** as your dedicated and reliable **सारथी** committed to protecting you and your property. **Your safety is our mission**

Safety First

Regulations

Our Site Safety Monitoring Policies

■ REGULAR INSPECTIONS

- Conduct routine site inspections to identify and mitigate potential hazards.
- Document and address any safety concerns immediately.

■ SAFETY AUDITS

- Perform periodic safety audits to ensure compliance with safety regulations and standards.
- Involve third-party auditors for an unbiased review of safety practices.

■ INCIDENT REPORTING

- Establish a clear and accessible system for reporting accidents, near-misses, and safety breaches.
- Encourage a culture of transparency and accountability in reporting.

■ CONTINUOUS MONITORING

- Implement sensors and alarms for detecting environmental hazards like gas leaks or fires.

■ TRAINING AND EDUCATION

- Provide ongoing safety training for all site personnel.
- Conduct regular drills and simulations to prepare for emergencies.

■ SAFETY COMMITTEES

- Form safety committees to oversee and manage safety protocols.
- Include representatives from various departments to ensure comprehensive coverage.

■ CORRECTIVE ACTIONS

- Promptly address any identified safety issues with corrective actions.
- Regularly review and update safety procedures based on incident reports and audit findings.

In House Tools Available With Us For Mechanical / low Volt. Electrical Projects

■ POWER TOOLS
