INTRODUCTION LETTER

VISION- To be a company creating products with complete honesty and ownership towards customer excellence and satisfaction

VALUES- Purpose- complete awareness
Responsibility- complete ownership
Virtue- Being Honest

MISSION — To be a growing company from annual turnover from 6 cr. to 36 cr.

On the behalf of **SPM Castings**, we take this opportunity to tell you about our company that has established its market into the Casting & Machining industry since 2012. Our company is specialized in

- **Sand Castings**
- **Gravity Die-Castings**
- **PDC castings**
- **All types of machining**

We mainly manufacture Non-Ferrous alloy castings (Brass, Gunmetal, Pb1, Pb2, Copper, Zinc..ect) by Sand and Aluminium GDC Casting process followed by required machining with absolute precision.

SPM Castings gives **a complete solution** to Industries requirement of Aluminum alloy Sand castings. We manufacture required dies, produce castings and machine them as per requirements, so as to carry out all development activities **under one roof.**

To produce the castings, we have Electric furnaces, to melt and hold 300 kg and 100 kg Aluminium in each of the furnace. We are well supported by vendors having facilities of CNC Milling, CNC Wire-cut, Spark-Erosion (EDM) and Jig boring for manufacturing complex dies. We also make sand casting in copper, Brass, Bronze, Gun metal, Zinc based alloys.

We manufacture motor bodies, various small motor parts, enclosures, components for various products in different Electrical, Defense, Pump , Pneumatic, Non-Automobile and Automobile applications.

We will look forward to meet & describe the service of our company & the value you can get from our co-operation.

Thank You.

SPM Castings,
Cell- 07709301109.

Our Specialization

1. Sand Casting- In-house up to 100 kg
2. GDC- In-house up to 50 kg
3. PDC- In-house up to 15 kg

List of Foundry and Machining Equipment:

1. Gravity Die Casting Machines:-

- AC-455 melting cum holding electric furnace.1 no.
- AC 150 kg melting cum holding electric furnace. 1 no.
- GDC Tilting 1000*800 machine-1no
- Band saw machine 1no.
- Belt Grinder 1 no.
- GDC Tilting Machine 800 x 600
- GDC Machine. 450x450 platen size.

2. Sand Casting:-

- AC-300kg Melting cum holding electric furnace.1 no
- AC-100 Electric furnace- 1 no
- 50 Kg Coal Fired Furnace- 1 Nos

3. Pressure Die Casting:-

- 120 Ton PDC machine-1no.
- 180 Ton PDC machine-1no.
- 200 Ton PDC machine- 1no.
- 300 Ton PDC machine- 1no.
- 90 ton Hot Chamber Machine-1no
- Belt Grinder 2 weel 1 no.
- Band saw machine 1no.
- Shot Blasting

4. Machining:-

- ACE MICROMATIC CNC Machine – Chuck Size Dia 300 mm
- ACE MICROMATIC VMC Machine-1-Bed size 800X900 mm
- ACE MICROMATIC VMC Machine-2-Bed size 300X400 mm
- ACE MICROMATIC VMC Machine-3 with fourth axis-Bed size 400X400 mm

5. Others:-

- Temperature monitoring system.
- Screw air compressor 11kw 15hp. 1no.
- Air compressor 2no.
- Air compressor mini 2no.
- Hydraulic Ejection system.
- Other fettling equipment.
- Pillar drilling machine.
- Bench vice.
- Shell core filling fixture.
- 1 M1TR drilling machine
- Conventional heavy duty lathe machine – 2 no.

For further details kindly visit our foundry at below address.

SPM CASTINGS,

Plot no.8/3-2, D-III Block, Behind TITAN Showroom
Near Adhunik Profile, Opp. to Jwala Auto Engineers.
M.I.D.C. Chinchwad, Pune-411019.
